

July 2022

This year like several in the passed, our July Adventure came to us. Violet, our youngest granddaughter, says you can only have July 4th at grandma and grandpa's! So, Willard, Tiffany, Isabelle and Violet came from Rock Springs to spend the first week of July in Stockton. Fuel cost being as it is, they didn't bring their camp trailer this year, but stayed in a cabin we rented for them. Walter came up on the 2nd with a problem computer for Harry to work on; as well as bring some fireworks to add to the arsenal. However at breakfast on the 4th, Walter got a call from his wife, Linda, who was in the hospital due to an infection, so Walter had to hurry home and missed the evening fireworks. We had about two hours of fireworks to entertain the family and neighbors. Isabelle and Violet enjoyed swimming at the city pool daily and the family made nightly visits to the bowling alley for supper. Willard and family took two side trips while here – the first to visit the geographic center of the U.S., near Lebanon; and the second to see the Big Ball of Twine at Cawker City. As they left to return to Rock Springs, Isabelle and Violet indicated they are looking forward to July 2023! Not many pictures taken, but a few appear on the next slide.
